Understanding your net metering statement

Each month you'll receive a Net Energy Metering Billing Statement with your SDG&E® bill. This guide is designed to help you better understand how to read your statement. You can also view this guide at ***sdge.com/nem****. If you have any questions, please call* ***1-800-411-7343****.*

Payment Required This Month:		**No**

This section contains information about your account, programs or services.

Billing information

1 NEM Start Date:
Net Energy Metering (NEM) is applied to your electric account over a 12-month billing period. Each 12-month period is referred to as a 'relevant period', 'true up' or 'settlement period.' The NEM start date reflects the start of your current 12-month period.

2 NEM True-Up Date:
The date your current 12-month period ends. This date is when we'll reconcile your account and automatically reset it for a new period.

3 Bill Date:
The ending date for a specific billing period.

4 Days:
The number of days in each billing period.

Use, charges & credits

5 Total kWh:
A positive number represents the net kilowatt hours (kWh) purchased from us during the billing period. A negative number represents the excess kWh your system produced and delivered to the local grid during the billing period. **NOTE:** We do not track the total kWh your system generated.

6 NEM Charges:
Represents the charges associated with net kWh purchased from us during the billing period. **NOTE:** If you are an excess generator and reside in the city of San Diego, your charges represent only the city taxes on your monthly minimum charge.

7 NEM Credits:
Represents the credits associated with the excess kWh your system produced and delivered to the local grid during the billing period.

8 Applied Credits:
Represents NEM credits from the remaining credits column used to offset outstanding NEM charges.

9 Remaining Credits:
The amount of NEM credits that have not already been applied to NEM charges. This amount will be used to offset outstanding or future charges within the current 12-month period.

10 Cumulative Balance:
Represents the running total of your NEM charges less any applied credits. This amount does not include any remaining credits which have not yet been applied to your account. Any payments made are not reflected in this balance.

Balances and totals

11 YTD Net Metering Charges/Credits:
The running total of your NEM charges less your applied credits in the current 12-month period.

12 Reduce Your Use Day Reward:
Represents the rewards you've earned on Reduce Your Use event days in the current 12-month period.

13 Minimum Charge Adjustment:
A minimum charge of $.17 per day is required for residential billing. This figure represents the running total of any minimum charges for the current 12-month period.

14 Additional Charges/Payments:
The running total of any additional charges or payments that you have incurred or made during this 12-month period.

15 Current Account Balance:
Represents your current NEM account balance. This balance does not include any remaining credits which have not yet been applied to your account.

16 Payment Required This Month:
Indicates whether or not a payment is required this month.
